KEY FINDINGS

- Month-to-Month contracts show the highest churn rate.
- Customers within their first 12 months are most likely to churn.
- Fiber Optic customers have significantly higher churn than DSL customers.
- Electronic Check users exhibit the highest churn among payment methods.
- Two-Year contracts generate the highest Customer Lifetime Value.

RECOMMENDATIONS

1. Promote annual and two-year contract plans.
2. Improve onboarding during the first 12 months.
3. Investigate Fiber Optic customer experience and pricing.
4. Encourage customers to adopt automatic payment methods.
5. Bundle Tech Support services to improve customer retention.
